AIR PURIFIERS

H614

Allergies & Asthma

Trap particles that can trigger asthma and allergies with true Hepa filtration

The Airpura H614

Specially designed for powerful particle filtration, the Airpura H600 offers a large Super HEPA (HEPA-14) filter together with a HI-C carbon weave filter to add basic odor and chemical filtration. A pre-filter traps larger particles.

An excellent choice for asthma and allergies
Helps remove the airborne particles that trigger attacks.

A germicidal UV lamp available as an option

Sterilizes antigens and pathogens.

Situated in the filter chamber for maximum efficiency.

Removes:

Pet dander, dust mites, pollen, mold spores, asbestos fibers, droplets.

Effective for up to 2000 square feet

Cleans the air approximately every 30 minutes.

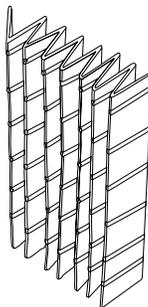

The Airpura H614

Available in
White / Black / Cream

The Airpura Limited Warranty
5 years parts 10 years labor

Super HEPA Filter

- Super HEPA (or HEPA-14) filters 99.99% of particles as small as 0.3 microns
- 40 square feet of filtration surface with 1" deep folds.
- The Hepa is warm rolled to avoid cracking at the folds and avoid leakage.
- Spacers keep the folds open and make sure that all the surface area is filtering.

Long Lasting Filters

HEPA-14 filters typically last 5 years in regular use.

Pre-filters can be vacuumed from the exterior of the unit and should be changed every 12 months depending on use

HI-C carbon weaves should be changed every 4-6 months depending on use

Protect yourself from the harmful effects of airborne particles
